

How to charge your hearing aids

1 Turn on charger

Connect the charger to a power outlet and turn it on.

2 At night, put aids in charger

Insert left and right hearing aids.

3 Push down until light blinks

Light blinking = Charging.
Solid green light = Fully charged.
It can take 3 hours to fully charge.

4 Take out aids in morning

Pull aid towards you and lift out.
Light will blink green.
Put aids in your ears.
