

Patient Information: Hearing Aid Fitting

This appointment is designed fit you with hearing aid(s). You may get an aid for each ear, or just one aid depending on your hearing loss and needs.

How long will the appointment be?

30-40 minutes

What to expect during the appointment

The appointment will include an examination of your ears with an otoscope.

The audiologist will ensure that your hearing aids fit you correctly and are giving you sufficient sound for your hearing loss. The audiologist will explain to you how to fit the hearing aid(s) and give you information to take home on how to use and care for your aid(s).

Preparation guidelines

If you have significant wax in your ears there is a possibility that we will be unable to complete the appointment.

Test that may be carried out:

- The audiologist will look in your ears.
- Hearing aid sound check - the audiologist may put some fine tubes into your ears along with your hearing aids, and play a variety of sounds to check your hearing aid prescription.
