## Behavioural Frequency Chart

---

**Week starting:**

**Name of Resident:**

**Behaviour Being Recorded:**

How to use the frequency chart

- Record each time the above named resident engages in the behaviour listed above in a 2 hour period throughout the day using a tally 
- Leave the totals column blank and EBSS will analyse
- Phone 01315376044 if you have any problems filling this in.
- When you have completed a full week of recording post the form back to the team in the stamped addressed envelope (EBSS, Midmar, MacKinnon House, Royal Edinburgh Hospital, Morningside Terrace, Edinburgh EH10 5HF).
- Make sure all staff on shift are aware of this frequency chart.
- Thank you for filling in this form, we know it takes a bit of time but we will take the information away and use it to analyse the frequency of behaviour and see if there are any patterns or environmental triggers for the distress.
