

Healthcare Support Worker (HSCW) Band 2

NHS

Role Outline

In this role you will be working under supervision of more senior staff including healthcare practitioners, senior HCSWS or assistant practitioners to assist with care, treatment or intervention.

You'll be assisting with the delivery of the core aspects of person-centred care and treatment depending on the context of care delivery which could include personal care or taking observations for example.

You might also work in a hospital or a community setting in this role.

Benefits of the Role

This is a fantastic entry level position where you will work independently and be supported by more senior members of staff.

This role is extremely rewarding and focusses on building meaningful relationships with clients.

You'll use a variety of skills to support patients.

You'll receive your uniform and education, training and support as part of this role.

You might also work in a few different settings.

Depending on where you work, you might work flexible hours such as evenings or weekends.

Qualifications Required

SCQF Level 5 / 6 in Healthcare related subject is desirable but having the appropriate values, experience or competency to undertake role will be taken into consideration and on the job training will be given.

You would be good in this role if you:

Like making meaningful relationships with people and enjoy helping others

Are able to keep calm in stressful situations

Are hands-on and practical

Are a people person with good communication skills

Able to use initiative

Able to work flexibly and as part of a wider team

Able to keep things confidential

Enjoy working independantly

Are kind and compassionate
