

Manager

Care at Home

Role Outline

This role combines managing people, ensuring quality, providing advice and support and thinking ahead.

This role is responsible for ensuring all standards are met within the care at home service, and thinking about how the service can improve and develop.

Supporting, supervising, and motivating staff is a key element for this role as well as working alongside different professional groups including NHS, Council and other providers.

Qualifications Required

Depending on the position you apply for you may be educated to degree level or equivalent, with a relevant professional qualification.

At minimum, you'll be required to have your SVQ4 as well as an SVQ Care Services Leadership and Management at SCQF Level 10.

A management qualification is desirable and will be required for SSSC registration.

Benefits of the Role

This role has a lot of responsibility and is great for someone with good people management.

You'll be responsible for the daily and long-term activities of the service.

This is a fantastic opportunity to shape the service and work with a lot of different people.

You would be good in this role if you:

- Are able to motivate and support people
- Are able to work at a high level and think about the future of the service
- Are able to multi-task
- Are passionate about improvement
- Are able to support a wide range of people
- Have a good working knowledge of professional standards and regulation
- Are able to put policy into action
- Are able to deal with challenges and work independently
