

Activity Leader

Care Home

Role Outline

This role works creatively to design a programme of activities that support the residents to meet their physical and psychological needs.

You may also deliver and assist other staff to implement the activities for residents.

You might also work with groups or organisations outside the care home to deliver activities with the community.

Benefits of the Role

This is a great role for someone who wants to positively impact the lives of residents and work alongside staff.

It's a great role if you're creative and able to work with a lot of different people. This is an opportunity to be involved in the care of residents in a different way, supporting them to live the fullest life possible

Qualifications Required

You should already have your SVQ Level 2 and your employer, depending on where you work, may support you in getting your SVQ Level 3

You would be good in this role if you:

Experience of a care setting

Experience of working with residents with varied needs and interests

You must be IT literate with good administration skills

An outgoing, friendly and positive mindset

Excellent communication skills and the ability to create a fun and positive environment

Good working knowledge of health and safety
