

Specimen Collection During a Suspected Norovirus Outbreak

STOOL SAMPLING

Loose stool **ONLY** should be sent to the laboratory e.g. Grade 5, 6 or 7 on the Bristol Stool chart.

2 specimens of stool are required:

1 to Microbiology for C&S
(*C. difficile*, *Salmonella*, *Campylobacter* etc)

1 to Virology for Norovirus
PCR testing

AND/OR VOMIT SAMPLING

1 to Virology for Norovirus
PCR testing

Vomit sample -ICE does not produce a label for vomit sampling, so requests for these samples must be hand written on a request form.
