LEARNING OBJECTIVES

By the end of the training, delegates will be able to:

- state the prevalence of sight loss for people with complex needs
- be able to list common eye conditions and their potential impact
- understand how sight loss and unidentified sight loss can impact on life and behaviour for an individual
- identify the potential signs of sight loss
- recognise potential barriers to accessing eye care for people with complex needs and how to overcome these
- apply simple strategies to adapt your practice
- explain services available for further support and advice.
