Introduction

Staff

Clinic Timetables
  001_WGH Clinic Timetable
  002_RIE Clinic Timetable

Endocrine Management Protocols
  001_Management of patients with pituitary disorders on the neurosurgery wards
  002_Guidelines for the Investigation of Mineralocorticoid Excess
  003_Investigation of Cushing’s syndrome
  004_Von Hippel Landau Screening Protocol
  005_MEN 1 (Multiple endocrine neoplasia type 1) Screening Protocol
  006_MEN 2 (Multiple endocrine neoplasia type 2) Screening Protocol
  007_Management of Well Differentiated Thyroid Carcinoma
  007a_Management of Thyroid Cancer
  007b_Thyroid Function Testing in Primary Care Pregnancy Guidelines
  007c_Thyroid Function Testing in Primary Care Guidance Sept08
  007d_Amiodarone induce thyroid dysfunction
  008_Practical guidelines for arranging radio-iodine therapy and whole body scans for patients with differentiated thyroid cancer
  009_Guidelines for whole body scanning for surveillance of well differentiated thyroid cancer
  010_Procedure for outpatient radio-iodine administration (for doses of 400MBq or 800 MBq)
  011_Practical points on hypercalcaemia
  012_Practical points on hypocalcaemia
  013_Osteoporosis
  014_Glucocorticoid induce osteoporosis
  015_Growth hormone replacement therapy for adult hypopituitarism
  016_Growth hormone replacement therapy for adult hypopituitarism: Shared care policy and information for GPs
  017_Adult growth hormone deficiency assessment (AGHDA) Quality of life questionnaire
  018_Follow up for adults with Turner’s syndrome
  019_Maple Syrup Urine Disease protocol December08
  020_Management of Paget’s disease of Bone
  021_Criteria for surgery in asymptomatic primary hyperparathyroidism
  022_Management of Dysthyroid Eye Disease (GO) 22.12.08
  023_Investigation and follow-up of the incidental adrenal mass

Cardiovascular Risk Protocols
  001_Consideration of investigation for secondary hypertension
  002_Protocol for the induction of minoxidil therapy
Diabetes Protocols

001_Management of pregnancy and diabetes in RIE inpatients
002_Guide to diabetes antenatal care and clinics for SpRs
003_Management of diabetes on surgical wards
004_Integrated care pathway for the management of adult diabetes in the perioperative period
005_Multidisciplinary care pathway for diabetic ketoacidosis
006_Management of diabetic ketoacidosis
007_Management of acute hypoglycaemia
008_Management of Hyperosmolar non-ketotic syndrome
009_Guidelines for establishing the aetiology of diabetes in young adults
010_Referral sheet for WGH diabetes liaison nurses
011_Diabetes clinic new patient referral form
012_Administrative procedure for new urgent patients with diabetes
013_Algorithm for suboptimal control of type 2 diabetes

Endocrine Test Protocols and Patient Information Leaflets

001_Water deprivation test
002_Ammonium Chloride test
003_Arginine Infusion Test
004_Combined Calcium and Pentagastrin Stimulation Test
005_Insulin Tolerance Test
006_Acromegaly Glucose Tolerance Test
007_Glucagon Test for Growth Hormones
008_Corticotrophin Releasing Hormone (CRH) Test
009_Radio-iodine Patient Leaflet
010_Patient Consent for Radio-Iodine Treatment
011_RIE Patient information for Radio-Iodine Treatment
012_WGH Patient information for Radio-Iodine Treatment
013_Investigation of Spontaneous Hypoglycaemia – 72 Hour Fast
014_Investigation of Spontaneous Hypoglycaemia – 20 Hour Fast
015_Calcium Intake Questionnaire
016_Oral Glucose Tolerance Test (OGTT)
017_Subcutaneous Octreotide Protocol
